Personal Tutoring

(Grades PreK - 12)

Sylvan's personal approach in math, reading, and writing can set your child up for success for the next school year and for life. Our hours are flexible and programs are developed on your personal needs and goals.

Advanced Study Skills

(Grades 7- 12)

Kids learn how to set goals and how to get organized and manage time effectively to reach goals. They acquire strategies for their unique learning style and get ready to take on challenges with confidence.

Homework Help

(Grades 1- 12)

Students bring in school work and get personal support from a trained professional. Our teachers help them understand challenging topics while motivating independence and self-learning techniques.

Robotics 101

(Grades 2-5)

A lively introduction to building and programming robots using LEGO®.

Robotics 102

(Grades 2-5)

A continued exploration of pulleys and gears through the creation of new LEGO® robots.

Game Design 101

(Grades 4-7)

An introduction to programming through video game creation and animation design.

Game Design 102

(Grades 4-7)

Build on our 101 course with more advanced animations, games and special effects.

SAT or ACT Prep

(10-12)

We give teens the skills, strategies, and practice needed to score high on college entrance exams.

Advanced Reading Strategies

(8-12)

College-bound teens can master strategic reading skills to improve speed and comprehension for entrance exams and to prepare larger workloads ahead.
