Robotics 101

(Grades 2-6)

A lively introduction to building and programming robots using LEGO®

Robotics 102

(Grades 2-6)

A continued exploration of pulleys and gears through the creation of new LEGO® robots

Robotics 201

(Grades 4-6)

Build sophisticated bots using LEGO® for advanced problem solving and engineering

Robotics 202

(Grades 4-6)

An advanced robotics program using LEGO® to build problem solving and engineering skills

Game Design 101

(Grades 3-6)

Learn basic programming through animation and video game design

Game Design 102

(Grades 3-6)

Learn basic programming through animation and video game design

Game Design 201

(Grades 6-8)

Build on our 100 level courses with more advanced animations, games and special effects

Game Design 202

(Grades 6-8)

Build on our 100 level courses with more advanced animations, games and special effects
