REGULAR TUTORING HOURS - GRADES Pre-K - 12

We are offering tutoring for our core programs **MON - FRI 9am, 1pm & 4pm - 6pm, SAT 10am - 2pm**

All **ACADEMIC CAMPS** and **STEM CAMPS** run weekly from July 9th – August 24th 2018

SYLVAN ACADEMIC CAMPS: BIODIVERSITY OUTDOOR CAMP– GRADES 2 – 9

What better way to spend the warm summer days, than outside exploring the trails and learning about the biodiversity. We will start our hike at Humber trails, get lots of exercise while learning about how various ecosystems work. The children will also need to pack a small snack for our outdoor picnic. We will meet at Sylvan at 9 am and drive down to Humber trails for our adventure and return to Sylvan by 1:00 pm, from Monday to Friday for only \$325.00/week. Limited spots available, so register now to save your spot!

SYLVAN ACADEMIC CAMPS: SCIENCE FAIR - GRADES 5 – 12

What is more fun than creating your very own science project with given material! Our Sylvan Science Fair will be a fun and innovative way to help your child learn basic science concepts, design and implement experiments and finally present their work to you! **9 am – 4 pm** Monday through Friday, for only \$375/week.

SYLVAN ACADEMIC CAMPS: ACADEMIC WRITING - GRADES 7 – 12

Writing is an important aspect of your child's education. In their life time, they will use their writing skills every day! Whether it's to write an essay for school, a laboratory report, applications for university or even just a simple email, writing plays a huge role in our lives. A whole week dedicated to planning and exploring different writing styles. **10 am – 12 am** Monday through Friday, for only \$275/week.

SYLVAN ACADEMIC CAMPS: UNLIMITED EDGE - GRADES 1 – 8

For only \$325/month, attend an unlimited number of Math and/or Language Edge sessions. Monday through Friday, **only** one session a day per subject.

ADDITIONAL STEM CAMPS: MINECRAFT GAME DESIGN - GRADES 5 – 12

Minecraft is an exciting video game where your child will use their creativity to create a 3D procedurally generated virtual world using a variety of different cubes. Their designs need to be mindful of intruders and designed tactically to ensure safety of their people. They will not only learn how to design a game but ways to successfully run a society. **9 am – 12 pm OR 1 pm – 4 pm** Monday through Friday, for only \$225/week.

ADDITIONAL STEM CAMPS: ROBOT ELECTRONICS AND ENGINEERING - GRADES 4 – 12

For only \$250/week, Monday through Friday, from 1 pm – 3 pm, learn how to build robots using electrical circuits. Your child will have an experience of a lifetime, learning how to use various tools to create robots that perform different tasks. From nuts and bolts to screwdrivers, we will broaden their knowledge and experiences.
