SUMMER CAMPS 2016

(214) 342-3305

Call Today!

Individual Camps (K-12)

Math, reading, writing, study skills, college prep and more! Our process begins with a comprehensive assessment. We build a program unique to your child's needs. Our personalized approach uses SylvanSync technology delivered via iPad®. You make the choice on frequency and timing based on the available tutoring schedule. Our individual program has been producing successful results for over 30 years and now is enhanced with state of the art technology. It is simply the best educational investment you can make for your child's academic success.

Comprehension

STAAR Power Small Group Camps (3rd, 5th, 8th & Algebra)

Designed to give students extra help in STAAR prep whether they plan to take it next year or retake it this summer. We also offer even more intensive STAAR Prep in our personalized program

Get an EDGE UP! Small Group Camps (2-6 grades)

Math, reading, and writing: We build an individual lesson packet based on your child's current grade level ability. Students work on individual materials in a small engaging and fun group environment. Brain boosting and higher order thinking activities through the camp session keeps students motivated and energized. Our EDGE camps help stop summer learning loss and gives your child an academic EDGE for the new school year.

Writing

S.T.E.M. Camp -Robotics, Game Design & Bridge Building

According to government reports, within the next ten years, 20% of all U.S. jobs will be in Science, Technology, Engineering or Mathematics (STEM) fields¹. Our STEM program incorporates an interactive STEM curriculum that encourages budding young minds; all the while the students are having a blast! The camp will provide instruction in several aspects of STEM in a seamless flow:

Robotics-students build and program robots using skills learned in the camp to animate their robotic creations

Game Design-students design their very own video games, learning basic computer programming along the way.

Bridge Building -students design up to 7 types of bridges such as suspension bridges, learning basic scientific principles as they experiment and test the sustainability of their designs.

Kinder Ready Small Group (PK-1st)

This camp is designed to get your budding star ready to enter Kindergarten or review some tricky stuff including handwriting so that your child is confident and ready to succeed in 1st grade

Ready-to-Read Small Group Camp (k-2nd)

Designed for beginning readers entering 1st or 2nd grade, this is an exciting but challenging camp for young scholars. Materials cover phonics, early comprehension skills, vocabulary, and handwriting.

Math

Fit 4 Algebra Small Group Camp (7th-10th)

Algebra is the gateway to higher learning. Our Fit 4 Algebra camp prepares students for pre-algebra, algebra and geometry. Students have individual material based on their level and work in small engaging groups. Brain boosters and individual technology are incorporated to increase active learning and team building.
